This institution seems to have come in for a lot of grants. First, we approved a building for a grant within Rs.14,000. Recently, a representation comes in that it is not Rs.14,000 but Rs.28,000. We approved that too and now this is coming. I think we need not approve too many things for the same institution in one year.

With reference to the minutes of H.M.(Edn) above it is submitted that the grants already sanctioned and referred to at 'A' above are building grants. The present application in this file is for an equipment grant. Equipment grants are ordinarily sanctioned for institutions which apply for such grants, on the recommendation of the D.P.I., without reference to any other grants paid to such institutions, provided the grant applied for is not for any new College or new course of study opened in a college. The application for equipment grant in this case satisfies the above conditions and it is doubtful whether it will be fair to refuse the grant on the ground that some building grants have already been sanctioned to this College. Besides, if such a view is accepted, institutions which get building grants for specifi building purposes in a year cannot get during that year equipment grants which would otherwise be sanctioned.

C subject, of course, also to due compliance with the conditions in the Grant-in-Aid Code.

For orders as to recirculation.
